Stalke Out of Space Project #12

Place Nørregade 7A

30.5.20.6.1993

17:00 CET

Stalke Out of Space was pleased to present Project no. 12: 17.00 CET, an exhibition featuring six of the most radical and experimental artists of the time.

The exhibition included works by Olafur Eliasson, Michael Elmgreen / Henrik Olesen, Joachim Koester, Ann Kristin Lislegaard, Christine Melchior, and Lars Bent Petersen.

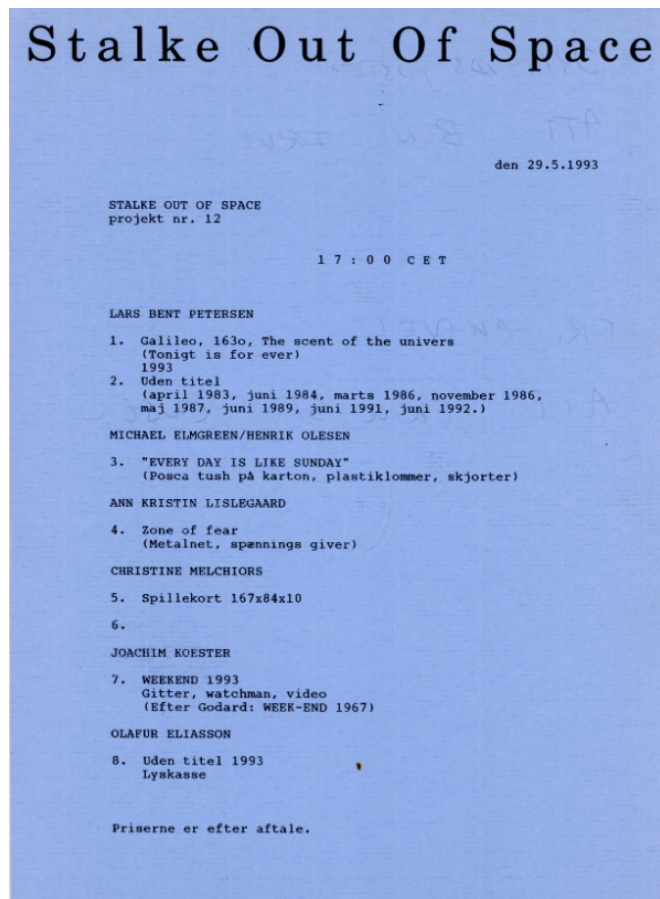

The six artists had, in the preceding years, demonstrated a strong will and courage to explore new artistic paths. Their works often demanded active engagement from the viewer and were characterized by a frequently understated and minimalistic aesthetic, grounded in a broad network of references and meanings.

The artists participating in 17.00 CET were all born in the 1970s and shared a common cultural and generational background. This formed the basis for individual interpretations of the surrounding world, in which subjective experience and social or political concerns were often treated on equal terms.

17.00 CET functioned as an attempt to bring together several of these artistic expressions and, for the first time, present them collectively.

Sam Jedig

Official work list displayed in the exhibition "Stalke Out Of Space – Project No. 12" (1993), curated by Olafur Eliasson. The checklist includes works by Lars Bent Petersen, Elmgreen & Dragset, Ann Kristin Lislegaard, Christine Melchior, Joachim Koester and Olafur Eliasson. Original document from the Stalke archive.
